At Ricci's we fully support all campaigns to **reduce** the consumption of so called **junk food** containing unacceptable levels of salt, sugars, saturated fats, additives and artificial colourings.

In line with this policy, all food (with the exception of some sweets and some cold drinks) is made using only the best Italian products and locally sourced fresh meats and fresh vegetables.

Ricci's pizzas are made to order on thin, fresh, home-made bases with no added fats or sugars.

They are topped with 100% mozzarella cheese (a relatively low fat cheese made from semi-skimmed milk) and our own recipe tomato base sauce - again with no added fats, sugars, preservatives or artificial colourings.

Final toppings still rightly remain the choice of the customer.

Our imported Italian Coffees are all served or made with semi-skimmed milk.
